## AEOLIAN SANDSTONE

600x1200mm

Inspired by the weathered and timeless Beacon sandstone, it blends natural fine sand with soft flowing textures through a simple surface and modern trend tones. The interlaced particles are evenly and delicately distributed on the tiles, with water marks appearing in the sunlight as reflections of various tributaries of varying thickness. The luster exudes a texture, which is unique and interesting, while carrying a subtle and emotional high-end temperament.

## AEOLIAN SANDSTONE

600x1200mm

## LIMESTONE

600x1200mm

600x1200mm

Inspiration comes from Portuguese native stone - mocha sandstone, with an elegant and elegant off white color as the main tone, elegant and simple, comfortable and clean, restoring the exquisite artistic conception of nature. Fashion brand stores use stone materials that cater to contemporary people's pursuit of minimalist style. Adhering to artistic aesthetics and avant-garde creativity, exploring more diverse residential inspirations, making the space more quality and warmth.

## FUNES

600x1200mm

Inspired by the inspiration comes from the Funas Valley in Italy, where the picturesque scenery of giant peaks covered in rosy light is poetic and picturesque. The pure color scheme and crisscrossing fine lines endow the space with an infinite natural and pure atmosphere, resonating with nature and life.

SNOWDEN

600x1200mm

Taking inspiration from the natural beauty of Snowden rocks and geology in the UK, we explore the tranquility and vitality derived from nature. The rough surface texture of the rocks replicates the three-dimensional texture of natural stone, creating a lively and elegant personality.

# BENO

750x1500mm

Inspired by the Beno sandstone, it carries the traces of time and tells the story of the earth. Listening to the ancient wind, feeling the breath of the earth, as if every texture is a stroke of nature. The sunlight shines on the surface of the sandstone, interweaving and dancing like a dream. When Beno sandstone is integrated into architecture, it becomes a solidified art form, a spiritual habitat full of emotions and warmth, allowing residents to feel the power of space and the source of life closely connected.
